**Why Archery During Lag B’Omer?**

From PJLibrary.org: Israeli children typically play with bows and (suction-cup-tipped) arrows on *Lag Ba’Omer*, imitating students of Rabbis Akiva and Shimon who fooled the Romans by pretending they were hunting.

Archery requires skill and hand-eye coordination to get an object to a target. These ideas are safe for all ages and for indoor play so that you can have an “archery” experience for *Lag B’Omer* at home.
